

THE LOG

Index of Articles

World Ship Society, Australia & NZ
1954 – 1967

Nautical Association of Australia
New Series, 1968 – 2014

Nautical Association of Australia Inc.

www.nautical.asn.au

Edition 2, 28 October 2015

NOTES

This index is an update to that issued in 2004 indexing Articles in the first 50 years of THE LOG from 1954 to 2003. It brings the index up to 2014 and includes additional cross referencing and detail on articles to enable more information to be located.

PART 1 MERCHANT SHIPS

PART 2 NAVAL VESSELS

As in the previous issue **this Index shows LOG dates only**, page numbers are not indexed and readers will need to look through individual LOGS to find the articles.

From 1954 to 2008 the Index reference is shown as month and year of publication. For example, reference 3:5/63,3/68 indicates items published in the March & May 1963 and March 1968 issues of THE LOG. Also 7-8/58 indicates an item in the July-August 1958 LOG.

In 2009 the month of publication was replaced with the quarter in which THE LOG was issued (that is, numbers 1, 2, 3 and 4 each year) so that **indexing from 2009 refers to the quarter and year**. Thus 3/14 indicates items in the third issue of THE LOG for 2014.

(Note :This is different to the system adopted for the Indexes of Fleets and Classes, Illustrations and Authors recently published for the first time, which show the cumulative LOG Issue Number (W1-W75 old series and 1-198 New Series) and page number for each item.)

Many articles are indexed by ship name or other key word and many articles are indexed several ways to assist location. Examples follow:

- Before her time – The Loss of *Aeon*, is indexed under *Aeon*
- Sydney and the Aberdeen Line, is indexed under Aberdeen Line
- The Forgotten Few, is indexed under Photographers, The Forgotten Few
- John McIlwraith, is indexed under John and also under McIlwraith
- Alfred Holt's *Asphalion*: A World War II Experience, is also indexed under *Asphalion*
- Tale of Three Birds has had the ship's names *Albatross*, *Pelican* and *Swallow* added in brackets, and is also indexed under each ship name
- Missing Ships, Ships of the Past and Interesting Ships are indexed as a series together and also by ship names individually.

Information in brackets is additional to the Title of an article, and is provided to elaborate on the subject of the article. This frequently includes names of ships, which are then each separately indexed. Ship names and classes of ships are in italics. Class names are also in inverted commas. Some articles indexed are short, for instance an item of correspondence referring to an earlier article. Company names are frequently most easily found in the Fleets & Classes Index, although many items are listed in both indexes.

This Index is available to view as a searchable pdf document on the NAA website <nautical.asn.au> and can be downloaded and saved if required. Hard copies are available from the NAA from time to time. The web version will be updated periodically to incorporate later issues of THE LOG and to make improvements or to correct any errors. Suggestions for improvements and advice of any errors or omissions are welcome and should be emailed to <info@nautical.asn.au>

First 2004 edition prepared by Buster Browne, this second edition, based on the first, prepared by Tony Cavanagh, for the Nautical Association of Australia Inc.

PART 1 - MERCHANT SHIPS

50 Years of Port Adelaide – a Personal Recollection	1/11
50 th Anniversary for <i>The Log</i>	5/04

Woolworth Carriers, The 38	3/54

Nautical Association of Australia Inc.

The Nautical Association of Australia Inc. was founded in 1968 and is a voluntary non-profit organisation dedicated to the preservation and publication of the maritime history of Australasia and its adjacent seas. The NAA publishes the high quality quarterly colour journal *THE LOG*, typically of 72 pages, with recent maritime news, articles on maritime history, research and personal recollections. It also publishes books of merit on maritime subjects relevant to the region.

THE LOG has been published in Australia since 1954, initially by the Australian and New Zealand sections of the World Ship Society (a UK organisation) and since 1968 by the Nautical Association of Australia. It is the only publication dedicated to recording the maritime history of the region and is distributed by subscription and through specialist outlets. For further details see website.
