NOTES

This Index lists authors and their contributions published in THE LOG from the first issue in 1954 to end 2014. It is arranged in two parts depending on the type of vessel involved:

PART 1 MERCHANT VESSELS

PART 2 NAVAL VESSELS

Articles are arranged in chronological order for each author.

The Index shows LOG **Issue Number** (bolded), followed by a slash, then page number in that issue.

‘Nom de Plumes’ are followed in brackets by real names where known. These real names (where listed) are followed by their respective ‘Nom de Plumes’ in brackets.

Names of vessels are in CAPITALS.

Secondary information is typically in brackets (eg correspondence, further information, contributors).

Book and other reviews are not included.

To convert LOG **Issue Number** to LOG **Volume/No** and **Date**, see **tables following the Index**. The **first table** (with **W** prefixes) is for LOGs produced by the World Ship Society from 1954 to 1967. The **second table** is for LOGs produced by the Nautical Association from 1968 to 2014.

This Index is available to view as a searchable pdf document on the NAA website <nautical.asn.au> and can be downloaded and saved if required. Hard copies are available from the NAA from time to time. The web version will be updated periodically to incorporate later issues of THE LOG and to make improvements or to correct any errors. Suggestions for improvements and advice of any errors or omissions are welcome and should be emailed to <info@nautical.asn.au>

Nautical Association of Australia Inc.

The Nautical Association of Australia Inc. was founded in 1968 and is a voluntary non-profit organisation dedicated to the preservation and publication of the maritime history of Australasia and its adjacent seas. The NAA publishes the high quality quarterly colour journal *THE LOG*, typically of 72 pages, with recent maritime news, articles on maritime history, research and personal recollections. It also publishes books of merit on maritime subjects relevant to the region.

THE LOG has been published in Australia since 1954, initially by the Australian and New Zealand sections of the World Ship Society (a UK organisation) and since 1968 by the Nautical Association of Australia. It is the only publication dedicated to recording the maritime history of the region and is distributed by subscription and through specialist outlets. For further details see website.
